

N° 2016

The N° 2016 lever pairs early 20th century functional aesthetic with subtle ornamentation as the body gently flares outward and terminates with a shallow ogee. The streamlined shank flares out to meet the subtle circumscription of the rosette. This lever is often specified with the N° 1030 knob. Finishes available include polished chrome, burnished brass, polished nickel and pewter as well as a wide range of other plated and patinated finishes. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors, tilt & turn windows as well as lift & slide doors.

Length: 4¼
Projection: 2¾
Rose Diameter: 1¾
