The Prismatic toothbrush and tumbler holder, based on an antique design, holds up to five toothbrushes. A boss raised by a cove fixes the elegantly curved holder to the arched post, which in turn is secured by a reeded backplate. The tumbler rests inverted above the toothbrush holder, covering the toothbrush heads yet allowing enough airflow to prevent moisture buildup. A comprehensive suite of aesthetically related bath hardware is also available, including towel rings, robe hooks, and glass towel rods, as are twelve NANZ plated and patinated finishes.
