NANZ

N° 2115

The curvaceous form of the No 2115 lever is inspired by the elaborate Baroque design of the 17th century. The handle spirals out from a central vortex, coiled around the top of the shank, and transitions into a robust S-curve. It is appropriate for modern or traditional interiors, and can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. All NANZ plated and patinated finishes are available.

LENGTH	4-1/15"
PROJECTION	2"
ROSE DIAMETER	2-7/8"
