NANZ®

# Nº 1215

The Nº 1215 modern T-knob features tapered posts joining at a central sphere. The simple geometry of the knob is suitably contrasted by the more natural and classical form of it's shank. The base of the shank is encirclesd by a plain cavetto creating a simple and classic impression. The cove rose maintains the restrained simplicity and accents the knob's Bauhaus principles of design. The handle is suitable for stylish modern interiors and can be used with cremones or in locations where T-handles would be specified. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. The knob can be provided with a myriad of alternative rose designs and is available in all Nanz plated and patinated finishes
