NANZ

AQ-OT-5.2-1240_2091

The NANZ Thermostatic Volumetric Shower control is manufactured in solid brass and features Huber anti-scalding technology. In addition, a safety feature requires button activation to reach the hottest temperatures. Valve comes with integral check valves and stops for easy installation and serviceability. Matching bath and basin fittings are offered, as are coordinating bath accessories and cabinetry. Selected examples appear below. Combining the neoclassical lexicon of the octagon and the ogival curve, the NANZ Octavio collection is a popular choice for both traditional and transitional interiors. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.
