NANZ

N° 6429

The ogee ornament of the No 6429 Georgian pull is evocative of the Neoclassical 1920s. Simple in design, the pull becomes a focal point on pocket or Harmon hinge doors. Alternative designs are available with ornamentation that compliment other hardware suites. The rounded recessed pull is two-pieced and available in a variety of finishes, including polished nickel, burnished brass, pewter, antique brass, and dark oxidized bronze.

DIAMETER	3-3/4"
PROJECTION	1/8"
DEPTH	11/16"
