

N° 21.10

A simple, rounded-edge backplate secures the Functional toothbrush holder, which holds up to five toothbrushes. The reduction of the backplate into its essential form recalls the beliefs of Le Corbusier that function is inherently beautiful. A boss raised by a cove fixes the elegantly curved holder to the arched post. A comprehensive suite of aesthetically related bath hardware is also available, including towel rings, robe hooks, and glass towel rods, as are twelve Nanz plated and patinated finishes.

Height x Width: 3-1/2" x 3"
