

No 1024F

The No 1024F is based on a design dating to the early 20th-century. This contemporary adaptation achieves a modern aesthetic by updating classical molding profiles. The faceted profile features four semi-elliptical forms enclosing a rectangular face with two concave sides. The rose's profile is composed of an ogree followed by an astragal and cove at the edge. The knob is available in larger diameters for doors, as well as smaller diameters for cabinetry. Backplates for cabinet knobs can be provided upon request at an additional cost. Full mortise entry locks, privacy locks, passage latches and tubular latches can be provided for use with this knob. All Nanz plated and patinated finishes are available as is a series of alternative rose designs.

Diameter: 1-3/4" 2" 2-1/4"

Projection: 2-1/8" 2-1/8" 2-1/4"
