

N° 1032B

The No 1032B neoclassical knob features gently flaring cross handles that terminate in an ogival dome ringed by a beaded astragal. The ogee motif is continued in the cylindrical center post as well as in the rose, which also repeats the beading detail. The knob can also be produced with a roped or plain astragal. T-handles are typically used on either a cremone or in pairs for double doors. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. All Nanz plated and patinated finishes are available. The handle measures 3-1/8" across with a projection of 2-3/8".

Diameter: 3-1/8" x 7/8"

Projection: 2-3/8"
