NANZ

N° 7430

The No 7430 heavy duty roller latch with adjustable silent action rubber roller is used to secure full sized swinging doors. The door is held in place as the spring-loaded roller falls into the depression of the strike. All Nanz plated and patinated finishes are available.

BACKPLATE	Strike 1-11/16" x 2-1/4"
BACKPLATE	1" x 3-3/8"
