

N° 1219

The No 1219 knob streamlines the traditional round knob with its sinuous profile. The knob and shank form one seamless, curving shape. It rests within a simple convex rose that is rimmed by a simple astragal. The clean, classic form of the handle makes it suitable for both contemporary and traditional interiors, and it is also available in black resin. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches may be provided for use with this knob. All Nanz plated and patinated finishes are available.

Diameter: 2-9/10"

Projection: 2-1/10"
