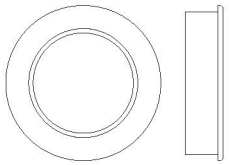
NANZ®

Nº 6429

The ogee medallion of the Nº 6429 Georgian pull is evocative of the Neoclassical 1920s. Simple in design, the pull becomes a focal point on pocket or Harmon hinge doors. Alternative designs are available with medallions that compliment other hardware suites. The rounded recessed pull is two-pieced and available in a variety of finishes, including polished nickel, burnished brass, pewter, antique brass, and dark oxidized bronze.



Diameter:	3 1/4
Projection:	1/8
Depth:	11/16

For dimensioned drawings or to view a wide range of additional recessed pulls, see our online catalogue at www.nanz.com.
