

N° 2009

The ergonomic engineering of the N° 2009 lever, designed for a Fifth Avenue residence in 1992, results in a beautiful sinuous form. The compound curve of the front edge creates a natural surface on which to rest the thumb. The oval rose is slightly domed. Recommended finishes include antique brass, polished nickel, polished brass, pewter and dark oxidized bronze as well as a vast range of other plated and patinated finishes. A variety of roses are also suitable for this handle. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows or as a fixed handle for dummy doors.

Length: 4"

Projection: 3-1/4"

Lever Style: Eclectic

Collection: Domus
