

N° 2013B

The No 2013B Georgian lever incorporates molding details which were part of the architectural vocabulary of 18th-century Neoclassicism. A beaded knurl accentuates the extremities of the tapering handle, ending in an ogival-shaped dome. The ogee profile is repeated on the face of the rose, which is ringed by a beaded knurl. The understated classicism allows the design to be used in a variety of interiors. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. All Nanz plated and patinated finishes are available. The lever, like many others, is available in an oversized version for front doors and with a variety of rose designs. The lever measures 4-1/8" long with a projection of 2-7/8".

Length: 3-3/8" 4-1/8" 5-1/8"

Projection: 2-3/4" 2-7/8" 3-1/8"

Lever Style: Transitional

Collection: Georgian
