

N° 2016

The No 2016 lever pairs early 20th century functional aesthetic with subtle ornamentation as the body gently flares outward and terminates with a shallow ogee. The streamlined shank flares out to meet the subtle circumscription of the rosette. This lever is often specified with the No 1030 knob. Finishes available include polished chrome, burnished brass, polished nickel and pewter as well as a wide range of other plated and patinated finishes. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors, tilt & turn windows as well as lift & slide doors.

Length: 4-1/2"

Projection: 2-3/4"

Lever Style: Transitional

Collection: Modern
