

N° 2106

Composed of two simple cylinders of equal diameter, the N° 2106 lever represents the height of functionalist design and geometric purity. The clean lines of the lever converge where the shank meets the handle and the circular rose. A wide array of alternative rose designs can be provided with this handle. Recommended finishes include burnished brass, antique silver, gold, antique nickel and dark oxidized bronze, though all Nanz plated and patinated finishes are available. This handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows.

Length: 4-3/8"

Projection: 2-3/4"

Rose Diameter: 1-3/4"

Lever Style: Modern
