

N° 2116

The No 2116 lever was inspired by the clean-lined modernism of 1930s industrial design. The handle tapers, ending in a chamfered terminus, and joins the bend with another chamfer. Recommended finishes include antique brass, pewter, nickel or silver plate, and antique gold finishes, though all Nanz plated and patinated finishes are available. This handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. The No 2116 can also be supplied with a square or rectangular backplate with exposed fasteners, as well as with a variety of alternative rose designs.

Length: 3" 3-1/2" 4-1/2"

Projection: 2-3/8" 2-1/2" 2-3/4"

Lever Style: Modern
