

Nº 2402

The No 2402 is a simple modern lever with an Oriental appearance. The rectilinear lever body extends past the cubic shank to create a T-configuration. The expanded shank base floats atop a stepped, square rosette with exposed fasteners. As is true with all Nanz handles, a multitude of alternate rose designs are also available. It is suitable for contemporary as well as transitional interiors and may be ordered in all Nanz plated and patinated finishes.
