

N° 8240

The No 8240 cabinet knob is a faceted version of the No 8004. The ogee profile of the face is mirrored on the underside of the knob and features a large bullnose molding around the edge. The design achieves an architectural monumentality, transforming traditional elements into a distinctly modern design. It is often specified with the companion No 1240 knob, which is manufactured in a variety of sizes for full-sized doors. All Nanz plated and patinated finishes are available. The knob is provided in four different sizes.

Diameter: 3/4" 1" 1-1/4" 1-1/2"

Projection: 3/4" 1" 1-1/4" 1-3/8"

Collection: Octavio
