

The face of the N° 8019 traditional elliptical cabinet knob rests on a circular base and a cavetto-profile shank. The optional cove rosette, available at an additional cost, accentuates the knob's purity of design. It is often specified with the companion N° 1019 knob, which is manufactured in a variety of sizes for full-sized doors. The N° 8019 is available in four sizes. All Nanz plated and patinated finishes are available.
