

N° 11.13

The Drum towel rod evokes 18th-century Neoclassicism through the use of reeding in both the rod and the flourishing backplates. The visual play of the decorative lines against the smooth posts creates a sophisticated design that is suitable for a variety of traditional and early modern interiors. While most popular in the sizes below, the rods can be ordered in any length. Longer dimensions will be provided with a center post. A comprehensive suite of aesthetically related bath hardware is also available, including towel rings, paper holders, and robe hooks. The hardware is produced in twelve Nanz plated and patinated finishes.
