

Nº 12.29

The Nanz Towel Ring is often used where space is limited like in a powder room. Cast from brass and precision machined, these bath accessories are a well considered collection of extraordinary quality. Matching bath and shower fittings are offered, as are coordinating bath accessories and cabinetry. Selected examples appear below. Originally fashioned for a late 80s showhouse, the faceted surfaces of the Nanz Prismatic collection were inspired by the art of the stone cutter. Joined with a matching set of complementary components the collections can be used throughout a project and is another wonderful example of a highly versatile transitional design style. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.

Diameter: 6" Ring
