

## N° 20.10

A simple, rounded-edge backplate secures the Functional soap dish holder. The reduction of the backplate into its essential form recalls the beliefs of Le Corbusier that function is inherently beautiful. The off-white, oval dish incorporates three interior ridges to prevent soap from dissolving in excess water. Manufactured in solid brass, the holder is available in twelve Nanz plated and patinated finishes. A comprehensive suite of aesthetically related bath hardware is also available, including towel rings, robe hooks, and glass towel rods.
