

NANZ

N° 5628

The N° 5628 rectangular escutcheon is designed to operate tilt & turn door mechanisms. Though shown with the N° 2017, it can be used with most NANZ levers. The escutcheon incorporates a positive stop mechanism which holds the lever in a locked or operable position. All NANZ plated and patinated finishes are available.

Height: 2-5/8"

Width: 1-1/4"

Collection: Functional
