NANZ

AQ-DO-5.1DVC-1045

Based on the simple sphere and fractional variations combined with cylindrical components, the NANZ Domus line is a most contemporary collection. It happily works juxtaposed in traditional settings, as well as modern interiors.

The NANZAQUATIC Volumetric/ Diverter Shower control is manufactured in solid brass and features Fluehs technology. The control works with 1/2" or 3/4" NANZAQUATIC volume control valves, 2-way and 3-way diverter valves, with or without shared ports. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.
