

**NANZ**

### AQ-GG-5.1-2013PC

The NANZ Thermostatic Shower control is manufactured in solid brass and features Huber anti-scalding technology. In addition, a safety feature requires button activation to reach the hottest temperatures. Valve comes with integral check valves and stops for easy installation and serviceability. Matching bath and basin fittings are offered, as are coordinating bath accessories and cabinetry. Incorporating the pleasing moulding profiles of 18th century Neoclassicism, the NANZ Georgian collection, is simple yet exceedingly useful in a wide variety of interiors. Perhaps our most popular collection for traditional kitchens and baths, the combinations of handles and complementary accessories are particularly numerous. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.

Diameter: 5" x 5"

Backplate Style: AQ-PT.070
