Incorporating the pleasing moulding profiles of 18th century Neoclassicism, the NANZAQUATIC Georgian collection, is simple yet exceedingly useful in a wide variety of interiors. Perhaps our most popular collection for traditional kitchens and baths, the combinations of handles and complementary accessories are particularly numerous.

The NANZAQUATIC Volumetric/ Diverter Shower control is manufactured in solid brass and features Fluehs technology. The control works with 1/2" or 3/4" NANZAQUATIC volume control valves, 2-way and 3-way diverter valves, with or without shared ports. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.

Baseplate: 2"

Handle Height: 2-7/8"

Length: 4-1/8"

Collection: Georgian
