

NANZ

AQ-MD-5.1-2004

The NANZ Thermostatic Shower control is manufactured in solid brass and features Huber anti-scalding technology. In addition, a safety feature requires button activation to reach the hottest temperatures. Valve comes with integral check valves and stops for easy installation and serviceability. Drawing inspiration from the realm of Arbus, Rhullman, and Chereaux, the Moderne collection is reminiscent of 1920's Paris. With simple sensuous lines the pleasing forms are particularly useful for any 20th century transitional interior. Our basin sets may be customized by choosing from our varied range of handles, spouts, bells, bonnets and rod finials. Matching bath and shower fittings are offered, as are coordinating bath accessories and cabinetry. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.
