

Shower Set 14

The Nanz Thermostatic Valve is manufactured in solid brass and features FLUHS ceramic valve cartridges. Matching bath and basin fittings are offered, as are coordinating bath accessories and cabinetry. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification. Revived from early fittings by American companies like, Mott, Meyer Sniffen, Crane and American Standard the American revival collection improves on wonderfully familiar shapes with the latest ceramic valve technology from FLUHS. As was the case in the early 20th century, handles are interchangeable allowing for a multitude of variations. Manufacturing to order allows Nanz to build your faucet as you like; just let us know your preference.

- Backplate: 5-1/2" x 5-1/2"
- Handle Height: 4-1/4"
- Knob Style: AQ-TX048.5595 0460 T
