

## EC-1006

The EC-1006 knob was inspired by an American Art Deco design of the 1930s. A slight outward flaring of the bullnose edge softens the strict geometry of the stepped face. The knob is adaptable to a variety of interiors, depending on the choice of finish; polished nickel emphasizes the modernity of the design, while burnished brass and patinated finishes portray a more traditional appearance. Diameter 2-1/4", projection 2-1/4", rose diameter 2". See all available finishes [here](#).
