EC-2004

The EC-2004 French Moderne lever, designed in the 1920s, was progressive for its reduction of form and elimination of all but essential ornament. At the same time, sinuous, tactile curves reminiscent of the Art Nouveau period characterize the design. The handle is suitable for a range of modern interiors. The lever is paired with a plain cove rose. Length 4", projection 2-1/4", rose diameter 1-7/8". See all available finishes here.
