

EC-5756PC

The EC-5756 multi-point escutcheon plate with square edges and rounded corners can be paired with NANZ levers for use on most types of multi-point doors. The escutcheon is available for use with profile cylinders, US multi-point cylinders, and can be provided without a cylinder cutout for inactive leafs. It measures 9-3/8" x 1-5/8". See all available finishes here.
