

Monoblock 10

The Nanz Monoblock Kitchen Faucet features a single control for volume as well as temperature. Turn for temperature-tilt to control volume. Fluls valves assure balanced pressure and anti scald features. Tension is perfect for just the right feel. A separate hand spray is also available. Basic shapes stripped of all adornment would be the best way to describe the Nanz Minimal collection. Working strictly to create the best designs while focusing only on proportion and composition, the product become small functional sculptures to adorn one's interior spaces. Stacked three dimensional metal shapes, the fittings are exceedingly useful in modern interiors and can be equally successful juxtaposed in traditional settings. Joined with a matching set of complementary components the collections can be used throughout a project. Selected examples appear below. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.

Spout Height: 16"

Spout Projection: 8

Knob Style: N° X912
