NANZ

N° 6022

The form of the No 6022 early American drop ring pull is essentially Baroque in the compound curves and paired cusps of the pendant ring, with a compressed sphere centered at the bottom. It is traditionally paired with surface-mounted rim locks, but also can be used as a dummy pull. Of the three available sizes, the smallest size works well for cabinetry pulls. All NANZ plated and patinated finishes are available.

WIDTH	ROSE DIAMETER
2-1/2"	2-1/2"
3"	2-1/2"
