

N° 1008

The N° 1008 knob reflects the stylistic impressions of the 1920s era. The knob is inspired by the International Style of Modernism and finds its aesthetic value in the paring down of forms and the use of industrial materials. Typical of the design style, a single step joins the knob to the straight shank and a cove detail transitions to the simple flaring rose. The knob is also offered in sizes suitable for cabinetry. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches may be provided for use with this knob. A large selection of rose designs is available for this knob. Recommended finishes include polished chrome, polished brass, satin nickel, burnished brass and burnished nickel. All NANZ plated and patinated finishes are available.
