

## N° 1030

The stylish No 1030 knob, dating to the early 20th century, achieves a modern aesthetic by updating classical molding profiles. The face of the knob is an ogee, which forms a cusp with the edge of the curving side. The cove-shaped shank ends with a simple rose with rounded edge. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. The knob is available measuring 2-3/8" in diameter for doors, as well in 3/4", 1", 1-1/4", and 1-1/2" diameters for cabinetry. Recommended Finishes include polished nickel, satin nickel, pewter, brass and dark oxidized bronze.

Diameter: 2-3/8"

Projection: 2-1/2"
