

N° 1036

The design of the No 1036 knob recalls the eclectic inspirations of the later 19th century, from Egyptian and Oriental to Gothic and Renaissance. A compressed sphere rising to a shallow cusp comprises the knob's Asiatic features, while the compound moldings of the shank and rose contrast the unadorned curve. Like many knobs, different backplates with varying degrees of ornamentation can be substituted. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. All NANZ plated and patinated finishes are available. The knob measures 2" in diameter with a projection of 2-1/2".

Diameter: 2" 2-1/4" 2-1/2"

Projection: 2-1/2" 2-5/8" 2-3/4"
