

N° 1054

The No 1054 melon knob is divided into seven segments radiating from a flattened disk in the center. The abstracted foliate design derives from ancient Near Eastern and Greek metalwork which were themselves abstractions of plant blossoms, and bears strong intimation to the plant motifs of the Art Nouveau era. The knob may be provided in 2-1/2" diameter for doors. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. All Nanz plated and patinated finishes are available, as are alternative rose designs.

Diameter: 2-1/2"

Projection: 2-1/2"
