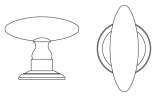
No 1065

The No 1065 knob derives from the attenuated shape of an early 20th-century zeppelin. The elegant design balances the modernity of pure geometric form with the classically detailed baluster-shaped shank and compound-curve rose profile. The handle is suitable for stylish modern interiors and can be used with cremones or in locations where T-handles would be specified. Full mortise entry locks, privacy locks, passage latches and tubular latches can be provided for use with this knob. Additional rose designs can be specified for use with this knob. Finishes available include, but are not limited to, burnished brass, antique nickel, polished chrome, antique gold and dark oxidized bronze. It measures 3" x 1" with a projection of 2-1/2".



Diameter: 3" x 1"

Projection: 2-1/2"
