

N° 1065F

The No 1065F faceted knob derives from the attenuated shape of an early 20th-century zeppelin. The elegant design balances the modernity of pure geometric form with the classically detailed baluster-shaped shank. The rose's profile adds to the simple geometry of the faceted knob. Appropriate for stylish modern interiors, and suitable to fit with a variety of different rose designs, finishes for this knob include burnished brass, antique nickel, polished chrome, antique gold and dark oxidized bronze. All NANZ plated and patinated finishes are also available. Full mortise entry locks, privacy locks, passage latches and tubular latches can be provided for use with this knob. It measures 3" x 1" with a projection of 2-1/2".

Diameter: 3" x 1"

Projection: 2-1/2"
