NANZ

N° 1103

The No 1103 traditional elliptical knob has a beaded astragal as it rests on a shank with a shallow cove profile. The rose maintains a beaded astragal around the edge. A backplate with hidden fasteners is also available. The knob can be provided in larger diameters for doors, as well as smaller diameters suitable for cabinetry. Backplates for cabinet knobs are available upon request at an additional cost. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. All NANZ finishes are available.
