

N° 1206

The No 1206 modern knob comprises cylindrical cross handles and center band joined to a gently tapering shank. The restrained simplicity repeated in the circular rose recalls Bauhaus principles of design. An optional square rose contrasts the knob's cylindrical forms to create a simple yet dynamic sense of geometry. The handle is suitable for stylish modern interiors and can be used with cremones or in locations where T-handles would be specified. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. The design detail is best seen in polished nickel, burnished brass, pewter or silver, though all NANZ plated and patinated finishes are available. The knob can be provided with a myriad of alternative rose designs. It measures 3-1/8" x 7/8" with a projection of 2-1/4". A selection of related products is also available, as is a smaller version, No 8206, suitable for cabinetry.

Diameter: 3-1/8" x 7/8"

Projection: 2-3/4"
