

N° 1209S

The No 1209S knob, designed in the late 19th century, exhibits a cool, restrained elegance, anticipating the Style Moderne in France by perhaps two decades. A large straight knurl rings the domed face of the knob. A similar knurl circles the ogee profile on the rose. A plain rose with an ovolo molding around the edge is also available. The knob is also available in smaller sizes, suitable for cabinetry. Backplates for cabinet knobs are available upon request at an additional cost. Alternative rose designs can also be provided with this knob. Full mortise entry locks, privacy locks, passage latches and tubular latches can be provided for use with this knob. All NANZ finishes are available.
