

N° 1240

The No 1240 knob is a faceted version of the No 1004. The ogee profile of the face is mirrored on the underside of the knob and again on the face of the rose. The large bullnose molding around the edge is reflected in the ovolo at the edge of the rose. The design achieves an architectural monumentality, transforming traditional elements into a distinctly modern design. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. All Nanz plated and patinated finishes are available. The knob is provided in 2-1/2" and 3" diameters for doors, and is also available in 3/4", 1", 1-1/4", and 1-1/2" diameters suitable for cabinetry.

Diameter: 2-1/2" 3"

Projection: 2-5/8" 2-5/8"
