

N° 1307

Fine crystal handles gained popularity in the late 19th century and have since been a symbol of refinement and elegance in the home. The No 1307 elliptical crystal knob is hand cast and polished using the same manufacturing techniques used in the 1880s. The interior of the crystal is mirrored and bezel-set in a cylindrical shank with a complementary thin cylindrical rose making it suitable for contemporary projects. Although shown here in satin nickel, the knob is available in all plated and patinated finishes and can be supplied for either full mortise sets or tubular latches if preferred. A minimum order is required.

Diameter: 2-3/4" x 1-3/4"

Projection: 2-7/8"
