

N° 1324

Fine crystal handles gained popularity in the late 19th century and have since been a symbol of refinement and elegance in the home. The No 1324 crystal knob is a modern interpretation of the classical crystal knob, however it is hand cast and polished using the same manufacturing techniques used in the 1880s. The handle is comprised of a compressed sphere and can be ordered clear or colored. The simple cylindrical shank and rose are available in all NANZ finishes. The straightforward design is appropriate for a variety of interiors and can be paired with a number of rose designs. A minimum order is required.

Diameter: 2-1/2"
Projection: 3-7/16"
