

N° 1860

Designed as part of the Chizler Collection, the N° 1860 knob design began with hand drawings, followed by wooden models. In the studio, files, saws, chisels and scrapers are utilized to fashion masters which are in turn used to create molds. Each handle is made through the lost wax process. The textured and organic nature of this handle interacts beautifully with a range of finishes. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob.
