NANZ®

No 1946

The No 1946 knob streamlines the traditional round knob with its sinuous profile. The knob and shank form one seamless, curving shape. The round rose perpetuates the simple curvature with smooth round edges. The clean classical form of the handle makes it suitable for both contemporary and traditional interiors. Full mortise entry locks, privacy locks, passage latches, as well as tubular latches can be provided for use with this knob. The knob has a diameter of 2" with a projection of 2-1/4" and is available in all NANZ plated and patinated finishes.

Diameter: 2"

Projection: 2-1/4"
