

## N° 2003

The No 2003 lever was designed for the firm of Jed Johnson and Alan Wanzenberg in 1991. The tapered, square handle with pyramidal end transitions into a cylindrical shank that in turn joins a cushion-shaped rose with faceted face. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. As with the majority of our products, the No 2003 can be provided in a vast range of Nanz plated and patinated finishes. The lever measures 4" long with a projection of 2-7/8".

Length: 4"

Projection: 2-7/8"
