NANZ

# N° 2004H

The No 2004H French Moderne lever boasts a 1920s design paired with custom hand peening, an art popularized during the Arts and Crafts movement. Progressive for its reduction of form and elimination of all but essential ornament, the design maintains a remnant of the Art Nouveau in its sinuous, tactile curves. Recommended finishes include satin nickel, polished nickel, light antique brass, dark oxidized bronze and antique nickel, though all NANZ finishes are available. The No 2004H is available in an oversized version for entry door applications. A variety of rosettes can be substituted. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows.
